

## **Targets for Sale at Field Archery**

**Targets are available for your convenience at the indoor archery range at our cost, \$1 per target. Field archery will no longer subsidize the cost of new targets for shooters who take targets and do not pay for them. If the honor system will not work all new targets will be removed from the archery range requiring you to bring your own targets to the range.**

**All used targets are free to use.**

**Please help to keep our current system in place as you all know archery supplies have dramatically increased in price.**

**Dick Riemer  
Field Archery Director**
